Executive Summary

As a Junior Software Developer with a Full Stack Software Development Diploma graduating October 2023 from Code Institute, I excel in HTML, CSS, JavaScript, and Python. With two decades of experience in Restaurant and Hospitality, I am a skilled team player with strong communication and creative problem-solving abilities. I have successfully led teams in agile environments, including start-ups, across various locations.

My diverse skill set includes restaurant management, operations, marketing, supply chain, and project management. Eager to transition into the tech industry, I seek an opportunity to join an exciting development team, fostering personal growth and making a meaningful impact.
